

NCAB Group Denmark acquires Print Production A/S

Print Production A/S in Horsens, south of Aarhus in Jutland, was originally a factory producing PCBs, but since 2023 it is a pure PCB trading company sourcing mainly from China. The company has three employees and a turnover of SEK 12 million and an EBITA result of just over SEK 1 million.

Print Production has a different customer base than NCAB in Denmark, with customers in the industrial segment. The two former partners will remain working with NCAB.

Peter Jensen, Segment Manager NCAB Nordic:

"We are very pleased to acquire and integrate Print Production into NCAB Group Denmark. It is a small but very fine company with high quality, fast deliveries and very knowledgeable staff with long PCB experience."

Søren Tranekær Christensen, Print Production:

"We are excited to join forces with NCAB and are confident this will be an interesting and rewarding step both for our customers and ourselves"
